

Bracelet Size Guide

Measuring your wrist is the best way to determine your correct size for all types of bracelets.

Before using the ruler to find the right size, print this guide at A4 paper and scaled to 100%. To check the accuracy of your printout, place a credit card under the line below. The scale is correct if the credit card and line length match.

- Cut out the ruler.
- Cut a horizontal line where indicated.
- Wrap the ruler around your wrist with the numbered side visible
- Slip the numbered end through the horizontal opening and pull until the ruler is flush against your skin.
- The number that lines up with the edge of the opening is your wrist size in mm.
